## Transition Coffee Morning

Change from One Position to Another  
(Preparing for adulthood pathway into Health Services)

**Join us for our monthly coffee morning get together to share information, hear from professionals and meet new parents.**

Continuing on with our focus on transitioning into adult services, in this informal coffee morning and question & answer session, we will be joined by Norma Johnson - Designated Clinical Officer for SEND (For Brent, Harrow & Hillingdon CCG). We will attempt to help parents make sense of Transition with regards to medical and emotional well being services and shine some light on the question; What should we be expecting across the health services?
